Education

Lancaster University, Physics

Lancaster, UK
2024 – 2028

University of Southampton, Physics with Astronomy

Southampton, UK
2019 – 2023

- Master's Research Project
 - Observing the magnetospheric structure associated with high-latitude aurora
- Dissertation Topic
 - The Role of the Sun on the Earth's Climate

Experience

Lancaster University, Graduate Teaching Assistant

Lancaster, UK
2024 – 2028
4 years

- PHYS101 – Physics of the Universe
- PHYS103 – Electric and Magnetic Fields
- PHYS104 – Thermal Properties of Matter
- PHYS113 – Series and Differential Equations
- PHYS133 – Oscillations and Waves
- PHYS134 – Electrical Circuits
- PHYS363 – Astrophysics Laboratory
- PHYS467 – Physics of Space Plasma

University of Southampton, Physics Outreach Demonstrator

Southampton, UK
2022 – 2023
1 year

- Delivered interactive workshops on auroral science and space weather to secondary school students, including hands-on activities and student-led presentations.
- Effectively delivered planetarium shows to students and parents, using visualisations and storytelling to explain auroral processes, the life-cycle of star formation, and major constellations.

Institute of Physics, Student Engagement Coordinator

London, UK
2022 – 2022
1 year

Volunteer

Women In Physics Network Committee, Social Media Coordinator

Southampton, UK
2022 – 2023

- Planned, chaired and coordinated events, guest lectures and talks featuring women in physics and other STEM fields, promoting diversity and collaboration.
- Produced media content to promote the network, inform students about opportunities, and increase engagement.
